If it is determined that available prepackaged curriculum is not cost effective or is inadequate to meet the needs of the district's students, the Superintendent or designee may adapt curriculum or develop new curriculum. Curriculum modification or development shall be performed by teachers, school administrators, and district administrators, with support and assistance, when available, from curriculum experts from the county office of education, postsecondary institutions, and/or curriculum or professional associations. Any modified or new curriculum shall be reviewed by the curriculum committee in accordance with the above criteria prior to being recommended to the Board.

Upon approval by the Board, a new curriculum may be implemented in a limited number of schools or classrooms on a pilot basis so that modifications may be made as necessary before implementing the curriculum districtwide.

RECOGNITION OF RELIGIOUS BELIEFS AND CUSTOMS

The Governing Board recognizes that students' education would be incomplete without an understanding of the role of religion in society. As appropriate for a particular course, teachers may objectively discuss the influences of various religions, using religious works and symbols to illustrate their relationship with culture, literature or the arts. The Board expects that such instruction will identify principles common to all religions and foster respect for the diversity of religions and customs in the world.

(cf. 6143 - Courses of Study)

In order to respect each student's individual right to freedom of religious practice, religious indoctrination is clearly forbidden in the public schools. Instruction about religion shall not promote or denigrate the beliefs or customs of any particular religion or sect, nor should a preference be shown for one religious viewpoint over another. Staff members shall be highly sensitive to their obligation not to interfere with the religious development of any student in whatever tradition the student embraces.

Staff shall not endorse, encourage or solicit religious or anti-religious expression or activities among students during class time. As part of their official duties, staff shall not lead students in prayer or other religious activities. However, staff shall not prohibit or discourage any student from praying or otherwise expressing his/her religious belief as long as this does not disrupt the classroom.

(cf. 5127 - Graduation Ceremony and Activities)

Students may express their beliefs about religion in their homework, artwork and other class work if the expression is germane to the assignment. Such work shall be judged by ordinary academic standards.

PHYSICAL EDUCATION AND ACTIVITY**Definitions**

Physical education is a sequential educational program that teaches students to understand and participate in regular physical activity for developing and maintaining physical fitness throughout their lifetimes, understand and improve their motor skills, enjoy using their skills and knowledge to establish a healthy lifestyle, and understand how their bodies work.

Physical activity is bodily movement that is produced by the contraction of skeletal muscle and that substantially increases energy expenditure, including exercise, sport, dance, and other movement forms.

Moderate physical activity is any activity which generally requires sustained, rhythmic movements and refers to a level of effort a healthy individual might expend while, for example, walking briskly, dancing, swimming, or bicycling on level terrain. A person should feel some exertion but should be able to carry on a conversation comfortably during the activity.

Vigorous physical activity is any activity which generally requires sustained, rhythmic movements and refers to a level of effort a healthy individual might expend while, for example, jogging, participating in high-impact aerobic dancing, swimming continuous laps, or bicycling uphill. Vigorous physical activity may be intense enough to result in a significant increase in heart and respiration rate.

Instructional Time

Instruction in physical education shall be provided for a total period of time of not less than 200 minutes each 10 school days. (Education Code 51210, 51223)

Monitoring Moderate to Vigorous Physical Activity

To monitor whether students are engaged in moderate to vigorous physical activity for at least 50 percent of physical education class or session time, the Superintendent or designee may:

1. Develop methods to estimate the amount of time students spend in moderate to vigorous physical activity or the number of students who are inactive during physical education classes
2. Provide physical education teachers with staff development, self-monitoring tools, stopwatches, and/or heart rate monitors to assist them in planning and assessing the level of activity in their classes

(cf. 4115 - Evaluation/Supervision)

PHYSICAL EDUCATION AND ACTIVITY (continued)

Physical Fitness Testing

During the annual assessment window between the months of February through May, students in grades 5 and 7 shall be administered the physical fitness test designated by the State Board of Education. (Education Code 60800; 5 CCR 1041)

(cf. 6162.5 - Student Assessment)

The Superintendent or designee may provide a make-up date for students who are unable to take the test based on absence or temporary physical restriction or limitations, such as students recovering from illness or injury. (5 CCR 1043)

On or before November 1 of each school year, the Superintendent may designate an employee to serve as the district's physical fitness test coordinator and so notify the test contractor. The test coordinator shall serve as the liaison between the district and California Department of Education for all matters related to the physical fitness test. His/her duties shall be those specified in 5 CCR 1043.4, including, but not limited to, overseeing the administration of the test and the collection and return of all test data to the test contractor. (5 CCR 1043.4)

Students shall be provided with their individual results after completing the physical performance testing. The test results may be provided in writing or orally as the student completes the testing and shall be included in his/her cumulative record. (Education Code 60800; 5 CCR 1043.10, 1044)

(cf. 5125 - Student Records)

Each student's test results shall also be provided to his/her parents/guardians.

READING/LANGUAGE ARTS INSTRUCTION

Cautionary Notice: As added and amended by SBX3 4 (Ch. 12, Third Extraordinary Session, Statutes of 2009), ABX4 2 (Ch. 2, Fourth Extraordinary Session, Statutes of 2009), and SB 70 (Ch. 7, Statutes of 2011), Education Code 42605 grants districts flexibility in "Tier 3" categorical programs. The Yreka Union School District has accepted this flexibility and thus is deemed in compliance with the statutory or regulatory program and funding requirements for these programs for the 2008-09 through 2014-15 fiscal years. As a result, the district may temporarily suspend certain provisions of the following policy or regulation that reflect these requirements. For further information, please contact the Superintendent or designee.

The Governing Board recognizes that reading and other language arts constitute the basic foundation for learning in other areas of study. Students should develop an appreciation for literature and for reading as a means to acquire knowledge. They also should develop oral and written language skills that enable them to effectively communicate with others.

(cf. 0200 - Goals for the School District)

(cf. 6143 - Courses of Study)

The Board desires to offer a comprehensive, balanced reading/language arts program that ensures all students have the skills necessary to read fluently and for meaning. The program shall integrate reading, writing, speaking, and listening activities in order to build effective communication skills.

For each grade level, the Board shall adopt academic standards in reading, speaking, and writing, including spelling and grammar, that meet or exceed state standards. The district's program also shall be aligned with the state framework for reading/language arts instruction.

(cf. 6011 - Academic Standards)

Teachers are encouraged to use a variety of instructional strategies to accommodate the needs of beginning readers and the varying abilities of more advanced readers.

The Superintendent or designee shall provide professional development opportunities that are designed to provide instructional staff with knowledge about how students develop language skills, the ability to analyze students' developing literacy, and the ability to draw from a variety of instructional strategies and materials.

(cf. 4131 - Staff Development)

(cf. 4222 - Teacher Aides/Paraprofessionals)

(cf. 4231 - Staff Development)

The Superintendent or designee shall ensure that the district's reading/language arts program offers sufficient access to textbooks and other instructional materials of varying levels of difficulty, including fiction and nonfiction works, so that students are continually reading at an appropriate level. In addition, technology should be available to support all areas of literacy.

Grades K-3

The goal of the district's early literacy program shall be to ensure that students are able to read fluently and at grade level by the end of third grade. To reach this goal, the Superintendent or designee shall design a balanced and comprehensive reading/language arts program with the following components:

1. Explicit skill development for beginning readers that includes phonemic awareness, phonics and decoding skills, and sufficient practice and repetition of these skills
2. A strong literature, language, and comprehension program that includes a balance of oral and written language
3. Ongoing diagnosis of students' skills
4. An early intervention program that provides assistance to students at risk of reading failure

Grades 4-8

The Board recognizes that reading/language arts instruction is an integral component of the curriculum at all grade levels. Continuous progress in fluency and comprehension shall be the goal of reading/language arts instruction in grades 4-8.

The program in these grades shall promote reading for subject matter comprehension, developing understanding of progressively more advanced reading material, analyzing and discussing a variety of reading materials, increasing the frequency of reading, developing more complex writing skills with attention to composition and vocabulary, and developing other communications skills.

READING/LANGUAGE ARTS INSTRUCTION (continued)

When students in these grades do not have fully developed reading/language arts skills, the Superintendent or designee shall make resources available to assist them in reaching a reading level sufficient to meet the demands of grade-level material. Staff at all grade levels and in every subject shall take responsibility for supporting and expanding students' literacy skills.

Supplementary Reading Instruction for Grades K-4

When state funding is available, the Board may offer students in grades K-4 increased instructional opportunities before or after school and/or outside the regular school session to assist those students who are experiencing difficulty learning to read and to increase the reading skills and reading enjoyment of all students.
